Actually this should lead to failures in acceptance tests now already, but is does not...			
Using 'strict-dynamic' is not an option for document.write due to CSP L3 rules			
<ul style="list-style-type: none">https://w3c.github.io/webappsec-csp/#strict-dynamic-usagehttps://html.spec.whatwg.org/#parser-inserted - document.write is "parser-inserted" and not considered applicable for "strict-dynamic"
