Description			
<p>Opening the admin panel with PHP8.1 results in array access related errors. The main error comes from the broken hierarchy creation that has been introduced in https://review.typo3.org/c/Packages/TYPO3.CMS/+72602 (it worked before by chance as PHP created an array on the fly).</p> <p>The other errors are mainly related to times handled as int and formatted as string.</p> <p>How to reproduce:</p> <ul style="list-style-type: none">- Use PHP 8.1- Open the admin panel <p>To get all related errors: open settings of the TS Tree module and check/uncheck the options</p>
