

## TYPO3.Flow - Issues

| #     | Tracker | Status       | Priority        | Subject   | Assignee           | Category                 | Target version | Has patch |
|-------|---------|--------------|-----------------|---|--------------------|--------------------------|----------------|-----------|
| 59140 | Bug     | New          | -- undefined -- | TYPO3\Flow\Error\Exception thrown in file ErrorHandler.php  |                    | - Error Handler Report - |                | No        |
| 54381 | Bug     | New          | -- undefined -- | TYPO3\Flow\Core\Booting\Exception\SubProcessException thrown in file Scripts.php  |                    | - Error Handler Report - |                | No        |
| 53851 | Bug     | New          | -- undefined -- | TYPO3\Flow\Core\Booting\Exception\SubProcessException thrown in file Scripts.php  |                    | - Error Handler Report - |                | No        |
| 51704 | Bug     | New          | -- undefined -- | TYPO3\Flow\Error\Exception thrown in file ErrorHandler.php  |                    | - Error Handler Report - |                | No        |
| 49801 | Bug     | New          | -- undefined -- | TYPO3\Flow\Security\Exception\AccessDeniedException thrown in file TYPO3_Flow_Security_Authorization_AccessDecisionVoterManager.php |                    | - Error Handler Report - |                | No        |
| 51489 | Bug     | New          | -- undefined -- | Doctrine\Common\Annotations\AnnotationException thrown in file AnnotationException.php  |                    | Annotations              |                | No        |
| 50869 | Bug     | New          | Could have      | key() invoked on object   |                    |                          |                | No        |
| 50342 | Bug     | New          | Could have      | PropertyMapper: Use of interface method before implementation check   |                    |                          |                | No        |
| 45386 | Bug     | New          | Could have      | Package::buildArrayOfClassFiles tries to determine class names from file paths  |                    |                          |                | No        |
| 52005 | Bug     | New          | Could have      | TYPO3\Flow\Error\Exception thrown in file ErrorHandler.php  |                    | - Error Handler Report - |                | No        |
| 54181 | Bug     | New          | Could have      | Use date_default_timezone_get() instead of ini_get('date.timezone')   |                    | Core                     |                | Yes       |
| 45640 | Bug     | New          | Could have      | Every relation is set to cascade=all if the related entity is no aggregate root   |                    | Persistence              |                | No        |
| 45611 | Bug     | New          | Could have      | Destruction of session after logout should be configurable  |                    | Security                 |                | No        |
| 52185 | Bug     | New          | Could have      | PositionalArraySorter should detect recursive dependencies  |                    | Utility                  |                | No        |
| 65684 | Bug     | New          | Should have     | Could not acquire lock for ClassLoader cache creation   | Sebastian Heuer    |                          |                | No        |
| 62009 | Bug     | New          | Should have     | Rewrite URI Filename could be empty   |                    |                          |                |           |
| 59747 | Bug     | New          | Should have     | TYPO3\Flow\Error\Exception thrown in file ErrorHandler.php  |                    |                          |                | No        |
| 59357 | Bug     | New          | Should have     | Using the PackageManager directly instead of the Interface results in unexpected behavior   |                    |                          |                | No        |
| 59084 | Bug     | New          | Should have     | if 403 Exception show reason  |                    |                          |                | No        |
| 58996 | Bug     | New          | Should have     | ResourceManager adding to persistence   |                    |                          |                | No        |
| 58744 | Bug     | New          | Should have     | Can not split configuration in settings.yaml  |                    |                          |                | No        |
| 58193 | Bug     | Under Review | Should have     | Forward-port changelogs to master branch  | Karsten Dambekalns |                          |                | No        |
| 57796 | Bug     | New          | Should have     | XLIFF Fails if id === nodedata  |                    |                          |                | No        |
| 55954 | Bug     | New          | Should have     | Associations to ValueObjects should not be cascade all'd  |                    |                          |                | No        |
| 55306 | Bug     | Under Review | Should have     | Filenames should not exceed 255 characters  | Christian Müller   |                          |                | No        |

| #     | Tracker | Status         | Priority    | Subject   | Assignee           | Category          | Target version | Has patch |
|-------|---------|----------------|-------------|---|--------------------|-------------------|----------------|-----------|
| 53189 | Bug     | New            | Should have | Blog tutorial no longer works   | Philipp Maier      |                   |                | No        |
| 52945 | Bug     | New            | Should have | Excluded classes should only be excluded from reflection but still autoloaded             |                    |                   |                | No        |
| 52430 | Bug     | New            | Should have | Cannot convert from UUID to auto-increment ID   |                    |                   |                | No        |
| 51972 | Bug     | New            | Should have | Joins for every deep property constraint make cartesian selection                         | Adrian Föder       |                   |                | Yes       |
| 51811 | Bug     | New            | Should have | Improve session handle when the authenticated account is removed from persistance         | Dominique Feyer    |                   |                | Yes       |
| 49372 | Bug     | New            | Should have | ObjectConverter ignores implemented interface when mapping subtype                        |                    |                   |                | No        |
| 49011 | Bug     | Under Review   | Should have | Support executing TYPO3.Flow inside a PHAR  |                    |                   |                | No        |
| 48430 | Bug     | New            | Should have | Default validator-messages are not correctly formatted                                    |                    |                   |                | No        |
| 48429 | Bug     | New            | Should have | Remove- and update-actions on repository are not persisted                                |                    |                   |                | No        |
| 47236 | Bug     | Needs Feedback | Should have | Error at offset 6279 of 6338  |                    |                   |                | No        |
| 46073 | Bug     | Under Review   | Should have | Scripts::executeCommand must be usable outside of TYPO3.Flow                              |                    |                   |                | No        |
| 45669 | Bug     | New            | Should have | PersistentObjectConverter does not convert ValueObjects by __identity                     |                    |                   |                | No        |
| 45272 | Bug     | New            | Should have | Related Value Objects get deleted by default cascading                                    |                    |                   |                | No        |
| 44148 | Bug     | New            | Should have | Documentation for executeCommand() needs clarification                                    |                    |                   | 2.0.1          | No        |
| 43947 | Bug     | New            | Should have | Redirect to login after Session timeout   |                    |                   |                | No        |
| 41727 | Bug     | Accepted       | Should have | @Flow\Identity and @ORM\InheritanceType("JOINED") can't be used together                  | Karsten Dambekalns |                   |                | No        |
| 41533 | Bug     | Needs Feedback | Should have | Ignored object-validation in editAction when redirecting back from updateAction           |                    |                   |                | No        |
| 40824 | Bug     | Needs Feedback | Should have | Modified action controller methods not detected properly                                  | Andreas Förthner   |                   |                | No        |
| 38216 | Bug     | Needs Feedback | Should have | Static method calls in reflected classes refer to _Original class                         |                    |                   |                | No        |
| 36634 | Bug     | New            | Should have | Reconstituted entities do not have their properties set when initializeObject() is called |                    |                   |                | No        |
| 36633 | Bug     | New            | Should have | Reconstituted entities should not have the FLOW3_Persistence_clone property set           |                    |                   |                | No        |
| 34404 | Bug     | New            | Should have | JsonView transformObject does not respect _descendAll configuration                       |                    |                   |                | No        |
| 33293 | Bug     | New            | Should have | Injection to private variable results in injection of the the wrong class                 |                    |                   |                | No        |
| 57972 | Bug     | New            | Should have | Missing @ManyToOne in example for resource  |                    | - Documentation - |                | No        |
| 45623 | Bug     | New            | Should have | SQL error when calling TYPO3.Blog Setup controller  |                    | - Documentation - |                | No        |
| 40802 | Bug     | Accepted       | Should have | Documentation mistake (authentication)  | Karsten Dambekalns | - Documentation - | 1.1.1          | No        |
| 39414 | Bug     | New            | Should have | Security Documentation  |                    | - Documentation - |                | No        |
| 38004 | Bug     | Accepted       | Should have | Missing CheatSheet folder for Getting Started manual                                      | Karsten Dambekalns | - Documentation - | 1.1.1          | No        |

| #     | Tracker | Status         | Priority    | Subject  | Assignee           | Category                 | Target version | Has patch |
|-------|---------|----------------|-------------|--|--------------------|--------------------------|----------------|-----------|
| 59049 | Bug     | New            | Should have | TYPO3\Flow\Error\Exception thrown in file ErrorHandler.php   |                    | - Error Handler Report - |                | No        |
| 48873 | Bug     | New            | Should have | Error when calling resourceManager->deleteResource on unpublished Resource   |                    | - Error Handler Report - |                | No        |
| 58153 | Bug     | New            | Should have | Session - Scope, Property with interface annotation fails at wakeup  |                    | AOP                      | 2.1            | No        |
| 27045 | Bug     | New            | Should have | Introduced properties are not available in the reflection service during a compile run                               |                    | AOP                      |                |           |
| 54446 | Bug     | New            | Should have | Cache filebackend 'include_once'   |                    | Cache                    |                | No        |
| 53262 | Bug     | New            | Should have | FileBakend have some race condition  | Dominique Feyer    | Cache                    |                | Yes       |
| 40410 | Bug     | Needs Feedback | Should have | Exception when using Apc, Memcached or Redis cache backend for reflection status and object configuration            | Karsten Dambekalns | Cache                    |                | No        |
| 39699 | Bug     | Accepted       | Should have | SQL DDL for TYPO3\FLOW3\Cache\Backend\PdoBackend   | Karsten Dambekalns | Cache                    |                | No        |
| 33465 | Bug     | New            | Should have | Some vital commands to recover the system fail when recovery is needed   |                    | Command                  |                | No        |
| 48596 | Bug     | Under Review   | Should have | IgnoredTags configuration should be easier to configure from packages  | Alexander Berl     | Configuration            |                | No        |
| 52909 | Bug     | New            | Should have | Class Loader fallback to non-proxy hides fatal errors  |                    | Core                     |                | No        |
| 51312 | Bug     | New            | Should have | Default php error handler generates warning (when loading TYPO3\Flow\Error\Exception class)                          |                    | Core                     | 2.0            | No        |
| 50080 | Bug     | Needs Feedback | Should have | Broken concept for CLI/Web separation  | Karsten Dambekalns | Core                     |                | No        |
| 47487 | Bug     | New            | Should have | Functional test classes in package without classes are not compiled  |                    | Core                     | 2.0.1          | No        |
| 43541 | Bug     | New            | Should have | Incomplete classes path detection for PSR-0  |                    | Core                     | 2.0.1          | No        |
| 39096 | Bug     | New            | Should have | Unnecessary compile invoked in non production context?   |                    | Core                     | 2.0.1          | No        |
| 32574 | Bug     | Accepted       | Should have | FLOW3 enters fork bombs when using cgi-fcgi vs cli   | Karsten Dambekalns | Core                     |                | No        |
| 51763 | Bug     | New            | Should have | HttpRequest always returns content of the current request  |                    | Http                     |                | No        |

| 48409 | Feature | New            | Could have  | Introduce new Annotation "Slot" for wiring signal and slots                                     |                     | SignalSlot  |                | No        |
| 39788 | Feature | New            | Could have  | RFC: Repository based NotExistsValidator  |                     | Validation  |                | No        |
| 3587  | Feature | New            | Could have  | Enforce validation rules for value objects already in constructor                               |                     | Validation  |                |           |
| 59244 | Feature | New            | Should have | Message or Container needs context  |                     |             |                | No        |
| 58579 | Feature | New            | Should have | Adding own environment constants to Flow  |                     |             | 2.x            | No        |
| 57763 | Feature | New            | Should have | Allow controller / package / action as params in \TYPO3\Fluid\ViewHelpers\Form\ButtonViewHelper |                     |             |                | No        |
| 56556 | Feature | New            | Should have | support hasProperty and isProperty  |                     |             |                | No        |
| 56486 | Feature | New            | Should have | Optimize the ObjectManager for performance  |                     |             |                | No        |
| 56036 | Feature | New            | Should have | Optimize autoloading  |                     |             |                | No        |
| 55831 | Feature | New            | Should have | Different scenarios for session settings  |                     |             |                | No        |
| 52590 | Feature | New            | Should have | Provide a way to get the Doctrine QueryBuilder  |                     |             |                | No        |
| 48657 | Feature | Under Review   | Should have | support HTTP_RANGE  |                     |             |                | No        |
| 46910 | Feature | New            | Should have | Composer integration - PackageStates.php  |                     |             |                | No        |
| 46371 | Feature | New            | Should have | Support compilation of static information in proxy classes                                      | Christopher Hlubek  |             |                | No        |
| 45100 | Feature | Under Review   | Should have | RequestDispatchingAspect should check if entry point can handle current request                 | Christopher Hlubek  |             |                |           |
| 44123 | Feature | New            | Should have | Make the "Flow requires the PHP setting "date.timezone"" error more beautiful                   |                     |             |                | No        |
| 43841 | Feature | New            | Should have | Add package support to validation errors  |                     |             |                | No        |

| #     | Tracker | Status         | Priority    | Subject   | Assignee           | Category       | Target version | Has patch |
|-------|---------|----------------|-------------|---|--------------------|----------------|----------------|-----------|
| 43572 | Feature | New            | Should have | Uri should support manipulation of query arguments                              |                    |                |                | No        |
| 43082 | Feature | Needs Feedback | Should have | Add CLI support for scaffolding models, views, controller                       |                    |                |                | No        |
| 36510 | Feature | New            | Should have | Firewall Redirect?  |                    |                |                | No        |
| 36509 | Feature | New            | Should have | redirectToUri to an uri with acl forces a 403 because of missing csrf token.    |                    |                |                | No        |
| 33710 | Feature | New            | Should have | Configuration based on Domain   |                    |                |                | No        |
| 32294 | Feature | New            | Should have | Lazy initialization of loggers  |                    |                |                | No        |
| 30258 | Feature | New            | Should have | Support optional package dependencies   |                    |                |                |           |
| 29476 | Feature | New            | Should have | Provider rendering time and query count for request                             |                    |                |                |           |
| 29258 | Feature | Needs Feedback | Should have | Provide a way to override classes by environment                                |                    |                |                | No        |
| 28074 | Feature | Needs Feedback | Should have | Provide a shell script that installs Phoenix or FLOW3 from git                  | Markus Bucher      |                |                | No        |
| 27322 | Feature | On Hold        | Should have | Add support for Appserver-in-PHP, which could result in much faster executions. | Christopher Hlubek |                |                | No        |
| 26986 | Feature | Accepted       | Should have | Debug toolbar   | Christian Müller   |                |                | No        |
| 39609 | Feature | Accepted       | Should have | Migration Version   | Karsten Dambekalns | - Migrations - |                | No        |
| 6712  | Feature | Accepted       | Should have | Implement mixin support   | Robert Lemke       | AOP            |                |           |
| 890   | Feature | New            | Should have | Add priority for advice chains  | Robert Lemke       | AOP            |                |           |
| 46816 | Feature | New            | Should have | Add xcache cache backend  |                    | Cache          |                | No        |
| 46318 | Feature | New            | Should have | [caching framework] Extend cache interface to handle multiple entries           |                    | Cache          |                | No        |
| 46216 | Feature | New            | Should have | Add wincache cache backend  |                    | Cache          |                | No        |
| 55199 | Feature | New            | Should have | Avoid Buffering of Shell output   |                    | Cli            |                | No        |
| 60095 | Feature | Under Review   | Should have | LockManager's LockHoldingStackPage should be configurable                       |                    | Configuration  |                | No        |
| 37373 | Feature | Under Review   | Should have | Make annotation overrides / "injection" via Objects.yaml possible               | Marc Neuhaus       | Configuration  |                | No        |
| 8464  | Feature | New            | Should have | Write settings using the ConfigurationManager                                   |                    | Configuration  |                | No        |
| 39088 | Feature | New            | Should have | Add a signal slot before compilation  |                    | Core           |                | No        |
| 30418 | Feature | New            | Should have | Package bootstrapping following dependencies                                    |                    | Core           |                |           |
| 36955 | Feature | New            | Should have | Add type filter to var_dump()   |                    | Error          |                | No        |
| 56916 | Feature | New            | Should have | Support PATCH request method as of RFC5789                                      |                    | Http           |                | No        |
| 35030 | Feature | Under Review   | Should have | Dynamic locale detection  | Karsten Dambekalns | I18n           |                | No        |
| 33018 | Feature | New            | Should have | Translator should support override of labels from other packages                |                    | I18n           |                | No        |

| #     | Tracker | Status         | Priority    | Subject  | Assignee             | Category      | Target version | Has patch |
|-------|---------|----------------|-------------|--|----------------------|---------------|----------------|-----------|
| 32607 | Feature | Needs Feedback | Should have | Export localized strings for JS consumption  | Karsten Dambekalns   | I18n          |                | No        |
| 26943 | Feature | Needs Feedback | Should have | Add i18n support to domain models  | Karsten Dambekalns   | I18n          |                | No        |
| 9313  | Feature | New            | Should have | Support for currencies   |                      | I18n          |                | No        |
| 9861  | Feature | Needs Feedback | Should have | Leave logging up and running as long as possible   |                      | Log           |                | No        |
| 3312  | Feature | Needs Feedback | Should have | Allow for easy logging by annotations  | Robert Lemke         | Log           |                |           |
| 48862 | Feature | New            | Should have | Possibility to exclude package from file monitoring  |                      | Monitor       |                | No        |
| 54037 | Feature | Under Review   | Should have | JsonView accepts encoding options  |                      | MVC           |                | No        |
| 51459 | Feature | New            | Should have | Allow catching of particular exceptions on property mapping  |                      | MVC           |                | No        |
| 34674 | Feature | Accepted       | Should have | NotFoundView is not injected in ActionController   | Robert Lemke         | MVC           |                | No        |
| 30890 | Feature | Accepted       | Should have | Developer Toolbar  | Christian Müller     | MVC           |                | No        |
| 30428 | Feature | New            | Should have | Cloning of request arguments   |                      | MVC           |                |           |
| 30423 | Feature | New            | Should have | Rendering template of other action without forward   |                      | MVC           |                | No        |
| 28231 | Feature | New            | Should have | Allow output to STDERR for CLI Response  |                      | MVC           |                |           |
| 26745 | Feature | New            | Should have | MVC should know about entities lying in the session  |                      | MVC           |                | No        |
| 3728  | Feature | New            | Should have | Support arrays of objects as controller arguments  |                      | MVC           |                |           |
| 3306  | Feature | Accepted       | Should have | Flush routes cache automatically on class file modifications   | Robert Lemke         | MVC           |                |           |
| 3153  | Feature | New            | Should have | Support of action based filter rules defined by annotation.  |                      | MVC           |                |           |
| 2817  | Feature | Needs Feedback | Should have | Provide safeguard for preventing multiple submits of a form  |                      | MVC           |                | No        |
| 44891 | Feature | New            | Should have | Routes should be able to enforce http/https protocol   |                      | MVC - Routing |                | No        |
| 37405 | Feature | Under Review   | Should have | When changing a property wich is used in routing the Link-VH should direkt to the new properties value |                      | MVC - Routing |                | No        |
| 29972 | Feature | Under Review   | Should have | Configurable Redirects   | Tim Kandel           | MVC - Routing |                | No        |
| 35783 | Feature | New            | Should have | Lifecycle method after property mapping  |                      | Object        |                | No        |
| 31262 | Feature | New            | Should have | Named arguments in Objects.yaml for constructor arguments  |                      | Object        |                | No        |
| 31261 | Feature | New            | Should have | Virtual objects - generate proxy classes for interfaces  |                      | Object        |                | No        |
| 3588  | Feature | Accepted       | Should have | Support value objects in the Object Factory  | Robert Lemke         | Object        |                |           |
| 41900 | Feature | Accepted       | Should have | Check for duplicate PSR-0 autoload namespaces  | Christian Jul Jensen | Package       |                | No        |
| 5774  | Feature | New            | Should have | Package Manager should clear all cache entries tagged with %PACKAGE%                                   |                      | Package       |                |           |

| #     | Tracker | Status         | Priority    | Subject  | Assignee           | Category    | Target version | Has patch |

| 28136 | Feature | New            | Should have | HTTP Semantics for Transactions and more   |                    | Persistence |                | No        |
| 9537  | Feature | New            | Should have | Query criterions should be able to compare whole objects                                   |                    | Persistence |                |           |
| 47273 | Feature | New            | Should have | Support mapping properties with differing types for setter and property                    |                    | Property    |                | No        |
| 37279 | Feature | New            | Should have | Request PropertyMapping  |                    | Property    |                | No        |
| 32106 | Feature | Accepted       | Should have | Support for Object source in PropertyMapper  |                    | Property    |                | Yes       |
| 26767 | Feature | New            | Should have | Reflection method to get a method return type and documentation                            |                    | Reflection  |                |           |
| 26765 | Feature | Accepted       | Should have | Support class schema features for every reflected class                                    | Karsten Dambekalns | Reflection  |                | No        |
| 51676 | Feature | Under Review   | Should have | Support of symlinks for Resources  |                    | Resource    |                | No        |
| 47075 | Feature | New            | Should have | Make Exception more meaningful   |                    | Resource    |                | No        |
| 45103 | Feature | New            | Should have | Make static resource URI generation available outside of Fluid                             |                    | Resource    |                | No        |
| 39253 | Feature | Accepted       | Should have | Remove mirroring mode option and code  | Karsten Dambekalns | Resource    |                | No        |
| 33937 | Feature | Accepted       | Should have | Convenience method to resolve public "resource://" paths                                   | Karsten Dambekalns | Resource    |                | No        |
| 33587 | Feature | New            | Should have | Automatically remove unused Resources  |                    | Resource    |                | No        |
| 53177 | Feature | New            | Should have | entity resource policy value support for `this`  |                    | Security    |                | No        |
| 48167 | Feature | Accepted       | Should have | Command line account and role browsing   | Adrian Föder       | Security    |                | No        |
| 46063 | Feature | New            | Should have | Implement username password provider with "remember me" persistent cookie                  | Christopher Hlubek | Security    |                | No        |
| 44563 | Feature | New            | Should have | Logged in users via HTTP Basic always get re-authenticated                                 |                    | Security    |                | No        |
| 39910 | Feature | Accepted       | Should have | Ability to query user based on roles   |                    | Security    |                | No        |
| 37846 | Feature | New            | Should have | Should be able to declare more than one controllerObjectName per requestPatterns           |                    | Security    |                | No        |

| #     | Tracker | Status         | Priority    | Subject  | Assignee           | Category   | Target version | Has patch |
|-------|---------|----------------|-------------|--|--------------------|------------|----------------|-----------|
| 34816 | Feature | New            | Should have | Long text encryption   |                    | Security   |                | No        |
| 29387 | Feature | Needs Feedback | Should have | A token with wrong credentials should throw an exception   | Andreas Förthner   | Security   |                |           |
| 28052 | Feature | On Hold        | Should have | Possibility to enable or disable accounts  | Julian Kleinhans   | Security   |                | No        |
| 9968  | Feature | New            | Should have | Promote security publishing configuration automatically when persisting models                     | Andreas Förthner   | Security   |                |           |
| 8463  | Feature | New            | Should have | Check security policy for objects reconstituted in the session scope                               |                    | Security   |                |           |
| 8462  | Feature | New            | Should have | Check subobjects in query rewriting  |                    | Security   |                |           |
| 5442  | Feature | New            | Should have | Destroy session / logout user on deleting an account   | Andreas Förthner   | Security   |                |           |
| 3621  | Feature | New            | Should have | Implement dynamic firewall filter registration   | Andreas Förthner   | Security   |                |           |
| 3619  | Feature | New            | Should have | Implement System Policy Support/System Security  | Andreas Förthner   | Security   |                |           |
| 32985 | Feature | New            | Should have | Implement Processing Rules when merging numerically-indexed arrays                                 |                    | Utility    |                | No        |
| 50901 | Feature | New            | Should have | @IgnoreValidation also for class fields  |                    | Validation |                | No        |
| 47456 | Feature | New            | Should have | ManyToOne and OneToOne Relations of Objects passed as Action Argument are loaded automatically     |                    | Validation |                | No        |
| 47191 | Feature | Under Review   | Should have | Make (property) Validators aware of parent class and the property they belong to                   |                    | Validation |                | No        |
| 45409 | Feature | New            | Should have | Support validation of abstract nested properties   |                    | Validation |                | No        |
| 35781 | Feature | New            | Should have | Model validation   |                    | Validation |                | No        |
| 28399 | Feature | Needs Feedback | Should have | Validation message and code should be configurable for bundled validators                          |                    | Validation |                | No        |
| 6178  | Feature | New            | Should have | Implement FileType and FileSize validators   |                    | Validation |                |           |
| 4146  | Feature | Accepted       | Should have | Support typed parameters for validation  | Karsten Dambekalns | Validation |                |           |
| 56744 | Feature | New            | Must have   | stay logged in   |                    |            |                | No        |
| 56639 | Feature | New            | Must have   | Implement "getPrivateStorageUriByResource()" for receiving (image-) file URIs                      | Robert Lemke       |            | 2.x            |           |
| 55870 | Feature | New            | Must have   | Enhance f:form.textfield or add a f:form.datefield VH with enhanced validation and propertymapping | Christian Müller   |            |                | No        |
| 1785  | Feature | New            | Must have   | Automatic garbage collection for expired cache entries   |                    | Cache      |                |           |
| 58622 | Feature | New            | Must have   | Clearer Exception: Array to string conversion  |                    | Core       |                | No        |
| 40555 | Feature | Accepted       | Must have   | Missing command arguments parameter in Core\Bootimg\Scripts::executeCommand()                      | Karsten Dambekalns | Core       |                | Yes       |
| 37212 | Feature | Accepted       | Must have   | Edge Side Includes (ESI)   | Robert Lemke       | Http       |                | No        |
| 3580  | Feature | New            | Must have   | Create an administration panel for the FLOW3 Development context                                   |                    | MVC        |                |           |
| 3305  | Feature | Accepted       | Must have   | Unmodified objects retrieved from a repository should not be validated in the controller           | Robert Lemke       | MVC        |                | No        |
| 50115 | Feature | Under Review   | Must have   | During the policy loading, we need to take care if class exist                                     | Dominique Feyer    | Security   |                | Yes       |

| #     | Tracker       | Status         | Priority    | Subject   | Assignee            | Category          | Target version | Has patch |
|-------|---------------|----------------|-------------|---|---------------------|-------------------|----------------|-----------|
| 38065 | Feature       | New            | Must have   | Implement content security for DQL queries  | Andreas Förthner    | Security          |                | No        |
| 6603  | Feature       | New            | Must have   | Provide a policy management API   | Andreas Förthner    | Security          |                |           |
| 44738 | Feature       | New            | Must have   | Re-Validation of argument's custom validators   |                     | Validation        |                | No        |
| 33258 | Major Feature | Accepted       | Should have | Implement support for Assetic   |                     |                   |                | No        |
| 3585  | Major Feature | New            | Should have | Implement support for value objects   |                     |                   |                | No        |
| 58184 | Major Feature | New            | Should have | HTTP request argument building for different use cases                                |                     | Http              |                | No        |
| 62292 | Major Feature | New            | Should have | Support for entity translation  |                     | i18n              | 2.x            | No        |
| 56602 | Major Feature | New            | Should have | Handling Of Multi Identity Entities   |                     | Persistence       |                | No        |
