

## TYPO3.Fluid - Issues

| #     | Tracker | Status         | Priority    | Subject   | Assignee | Category    | Target version | Has patch |
|-------|---------|----------------|-------------|---|----------|-------------|----------------|-----------|
| 52419 | Bug     | New            | Should have | Wrong PHPDocs notation for default value inline f:translate viewhelper                            |          |             | 2.0            | No        |
| 60856 | Bug     | New            | Must have   | Target attribute not supported by the form viewhelper   |          | ViewHelpers |                | Yes       |
| 57885 | Bug     | New            | Must have   | Inputs are cleared from a second form if the first form produced a validation error               |          |             |                | No        |
| 51100 | Feature | New            | Must have   | Links with absolute URI should have the option of URI Scheme                                      |          | ViewHelpers |                | No        |
| 49038 | Bug     | New            | Must have   | form.select does not select the first item if prependOptionValue is used                          |          |             |                | No        |
| 40064 | Bug     | New            | Must have   | Multiselect is not getting persisted  |          | ViewHelpers |                | No        |
| 38369 | Bug     | New            | Must have   | Resource ViewHelpers should not fall back to request package                                      |          | View        |                | No        |
| 27607 | Bug     | New            | Must have   | Make Fluid comparisons work when first element is STRING, second is NULL.                         |          | Core        |                | No        |
| 5636  | Task    | Under Review   | Must have   | Form_RadioViewHelper and CheckBoxViewHelper miss check for existing object before it is accessed. |          |             |                | No        |
| 65424 | Bug     | Under Review   | Should have | SelectViewHelper must respect option(Value Label)Field for arrays                                 |          | ViewHelpers |                | No        |
| 60271 | Feature | New            | Should have | Paginate viewhelper, should also support arrays   |          |             |                | No        |
| 60003 | Feature | New            | Should have | Add required-Attribute to f:form.password   |          | ViewHelpers |                | No        |
| 58983 | Bug     | New            | Should have | format.date does not respect linebreaks and throws exception                                      |          |             |                | No        |
| 58921 | Bug     | New            | Should have | f:form.* VHs crash if NOT inside f:form but followed by f:form                                    |          |             |                | No        |
| 56237 | Task    | New            | Should have | in-line (Condition)ViewHelpers should not evaluate on parsing                                     |          |             |                | No        |
| 54284 | Bug     | New            | Should have | Default Option for Switch/Case VH   |          | ViewHelpers |                | No        |
| 52591 | Bug     | New            | Should have | The Pagination Widget broken for joined objects   |          |             |                | No        |
| 52536 | Bug     | Under Review   | Should have | Errorclass not set if no property-attribute set   |          |             |                |           |
| 51277 | Feature | New            | Should have | ViewHelper context should be aware of actual file occurrence                                      |          |             |                | No        |
| 50888 | Bug     | Under Review   | Should have | WSOD by changing name of section and if Fluid caches are generated                                |          |             |                | No        |
| 49756 | Feature | Under Review   | Should have | Select values by array key in checkbox viewhelper   |          |             |                | No        |
| 49600 | Bug     | New            | Should have | f:form tag shown as a HTML on frontend  |          | ViewHelpers |                | No        |
| 47669 | Task    | New            | Should have | FormViewHelper does not define the default request method   |          |             |                | No        |
| 47006 | Bug     | Under Review   | Should have | widget identifier are not unique  |          |             |                | No        |
| 46545 | Feature | New            | Should have | Better support for arrays in options of SelectViewHelper  |          |             |                | No        |
| 46257 | Feature | Under Review   | Should have | Add escape sequence support for Fluid   |          | Core        |                | No        |
| 46091 | Task    | Needs Feedback | Should have | Show source file name and position on exceptions during parsing                                   |          |             |                | No        |
| 45394 | Task    | New            | Should have | Forwardport Unit test for standalone view   |          | View        |                | No        |
| 45345 | Feature | Needs Feedback | Should have | Easy to use comments for fluid that won't show in output  |          |             |                |           |

| #     | Tracker | Status         | Priority    | Subject  | Assignee | Category    | Target version | Has patch |
|-------|---------|----------------|-------------|--|----------|-------------|----------------|-----------|
| 45153 | Feature | New            | Should have | f:be.menus.actionMenuItem - Detection of the current select option is insufficient                       |          |             |                | No        |
| 43072 | Task    | New            | Should have | Remove TOKENS for adding templates fallback in Backporter  |          | View        |                | No        |
| 43071 | Task    | New            | Should have | Remove TOKENS for adding fallback teplates in B  |          |             |                | No        |
| 42743 | Task    | New            | Should have | Remove inline style for hidden form fields   |          |             |                | No        |
| 42397 | Feature | New            | Should have | Missing viewhelper for general links   |          |             |                | No        |
| 40081 | Feature | New            | Should have | Allow assigned variables as keys in arrays   |          |             |                | No        |
| 39990 | Bug     | New            | Should have | Same form twice in one template: hidden fields for empty values are only rendered once                   |          | Core        |                | No        |
| 39936 | Feature | New            | Should have | registerTagAttribute should handle default values  |          | ViewHelpers |                | No        |
| 38130 | Feature | New            | Should have | Checkboxes and multiple select fields should have an assignable default value                            |          |             |                | No        |
| 37619 | Bug     | New            | Should have | Fatal Error when using variable in name attribute of Section ViewHelper                                  |          | ViewHelpers |                | No        |
| 36655 | Bug     | New            | Should have | Pagination Links   |          | Widgets     |                | No        |
| 36410 | Feature | New            | Should have | Allow templates to send arguments back to layout   |          | ViewHelpers |                | No        |
| 34682 | Bug     | Under Review   | Should have | Radio Button missing checked on validation error   |          | ViewHelpers |                | No        |
| 33215 | Feature | New            | Should have | RFC: Dynamic values in ObjectAccess paths  |          |             |                | No        |
| 32035 | Task    | New            | Should have | Improve fluid error messages   |          | Core        |                | Yes       |
| 31955 | Feature | New            | Should have | f:uri.widget   |          | Widgets     |                | No        |
| 30937 | Bug     | New            | Should have | CropViewHelper stringToTruncate can't be supplied so it can't be easily extended                         |          | ViewHelpers |                | Yes       |
| 28554 | Bug     | New            | Should have | (v4) implement feature flag to disable caching   |          |             |                | No        |
| 28553 | Bug     | New            | Should have | improve XHProf test setup  |          |             |                | No        |
| 28552 | Bug     | New            | Should have | (v5) write ViewHelper test for compiled run; adjust functional test to do two passes (uncached & cached) |          |             |                | No        |
| 28550 | Bug     | New            | Should have | (v4) make widgets cacheable, i.e. not implement childnodeaccess interface                                |          |             |                | No        |
| 28549 | Bug     | New            | Should have | make widgets cacheable, i.e. not implement childnodeaccess interface                                     |          |             |                | No        |
| 13045 | Bug     | New            | Should have | Entity decode of strings are different between if-conditions and output of variable                      |          |             |                |           |
| 10911 | Task    | New            | Should have | Tx_Fluid_ViewHelpers_Form_AbstractFormViewHelper->renderHiddenIdentityField should be more reliable      |          | ViewHelpers |                | No        |
| 9950  | Task    | New            | Should have | Binding to nested arrays impossible for form-elements  |          | ViewHelpers |                |           |
| 9514  | Feature | New            | Should have | Support explicit Array Arguments for ViewHelpers   |          |             |                |           |
| 8648  | Bug     | New            | Should have | format.crop ViewHelper should support all features of the crop stdWrap function                          |          | ViewHelpers |                | No        |
| 4704  | Feature | New            | Should have | Improve parsing exception messages   |          | Core        |                |           |
| 3481  | Bug     | New            | Should have | Use ViewHelperVariableContainer in PostParseFacet  |          | Core        |                | No        |
| 3291  | Feature | Needs Feedback | Should have | Cacheable viewhelpers  |          |             |                | No        |

| #     | Tracker | Status         | Priority             | Subject  | Assignee           | Category    | Target version | Has patch |
|-------|---------|----------------|----------------------|--|--------------------|-------------|----------------|-----------|
| 60181 | Feature | New            | Could have           | Caching mechanism for Fluid Views/Templates  |                    | View        |                | No        |
| 48355 | Feature | New            | Could have           | Assign output of viewhelper to template variable for further processing.                   |                    |             |                |           |
| 36559 | Feature | New            | Could have           | New widget progress bar  |                    |             |                | Yes       |
| 34309 | Task    | New            | Could have           | Unknown ViewHelpers cause exception - should be handled more graceful                      |                    | ViewHelpers |                | No        |
| 30555 | Feature | New            | Could have           | Make TagBuilder more extensible  |                    | Core        |                | No        |
| 10472 | Feature | New            | Could have           | Fluid Standalone distribution  |                    | Core        |                | No        |
| 8989  | Feature | Needs Feedback | Could have           | Search path for fluid template files   |                    | View        |                | No        |
| 7608  | Feature | New            | Could have           | Configurable shorthand/object accessor delimiters  |                    | Core        |                | Yes       |
| 1907  | Feature | New            | Could have           | Default values for view helpers based on context   |                    | Core        |                |           |
| 26664 | Task    | New            | Won't have this time | Clean up Form ViewHelpers  |                    | ViewHelpers |                | No        |
| 26658 | Task    | New            | Won't have this time | Make Form ViewHelpers consistent   |                    | ViewHelpers |                | No        |
| 45384 | Bug     | New            | Must have            | Persisted entity object in widget-configuration cannot be deserialized (after reload)      |                    | Widgets     | 2.0.1          | No        |
| 46289 | Bug     | Needs Feedback | Should have          | Enable Escaping Interceptor in XML request format  |                    | View        | 2.0.1          | No        |
| 44234 | Bug     | Under Review   | Should have          | selectViewHelper's sorting does not respect locale collation                               |                    | ViewHelpers | 2.1            | No        |
| 62346 | Feature | New            | Could have           | f:comment should have high precedence  |                    | Core        | 3.x            | No        |
| 51239 | Bug     | Under Review   | Must have            | AbstractViewHelper use incorrect method signature for "\$this->systemLogger->log()"        | Adrian Föder       | Core        |                | Yes       |
| 54195 | Task    | New            | Should have          | Rename and move FormViewHelper's errorClass value, currently 'f3-form-error'               | Adrian Föder       | ViewHelpers |                | No        |
| 59057 | Bug     | Under Review   | Must have            | Hidden empty value fields should be disabled when related field is disabled                | Bastian Waidelich  | ViewHelpers |                | No        |
| 58862 | Bug     | Needs Feedback | Should have          | FormViewHelper doesn't accept NULL as value for \$arguments                                | Bastian Waidelich  | ViewHelpers |                | Yes       |
| 53806 | Bug     | Under Review   | Should have          | Paginate widget maximumNumberOfLinks rendering wrong number of links                       | Bastian Waidelich  | Widgets     |                | No        |
| 33628 | Bug     | Needs Feedback | Must have            | Multicheckboxes (multiselect) for Collections don't work                                   | Christian Müller   | ViewHelpers |                | No        |
| 55008 | Bug     | Under Review   | Should have          | Interceptors should be used in Partial   | Christian Müller   |             |                | No        |
| 3725  | Feature | New            | Could have           | CSS Engine   | Christian Müller   | ViewHelpers |                | No        |
| 37095 | Feature | New            | Should have          | It should be possible to set a different template on a Fluid TemplateView inside an action | Christopher Hlubek |             |                | No        |
| 8491  | Task    | Needs Feedback | Should have          | link.action and uri.action differ in absolute argument                                     | Karsten Dambekalns | ViewHelpers |                | No        |
| 43346 | Feature | Under Review   | Should have          | Allow property mapping configuration via template  | Karsten Dambekalns | ViewHelpers | 2.1            | No        |
